¹ In England "White Eastern European" is obtained from the Extended Code "White Eastern European". If the Extended Code "White Eastern European" is not available in your area the total will have been included under "White Other" and you will need to manually add the total for "White Eastern European" and make a balancing reduction in the total for "White Other".

² In Wales no code is available for "White Eastern European", so we calculate it by summing the totals for the following Ethnicities.

Bulgarian, Czech, Montenegrin, Polish, Latvian, Lithuanian, Hungarian, Slovakian, Slovenian, Romanian, Russian, Ukrainian
